Katie:

I've reviewed our records per your request.

With respect to Inspection Reports, we don't have a specific reporting form for compost inspections. When we observed non-compliance onsite, we dealt with it immediately. If a third party was observed preparing to dump unacceptable material, I stopped them and told them they could not. If necessary, I would remain until the truck or trailer load left the site. I would also immediately telephone Dan Powell or his onsite foreman to let them know of the issue. We do have several e-mails documenting some of these situations and I've included them on a flash drive provided to you.

I've also conducted site visits several times a week. Copies of invoices for the period of interest are also provided on the above-referenced flash drive for your use. Although these do not specifically state when landscape inspections were performed, that was but one of our responsibilities on the site.

If you have any questions, please let me know.

Kurt
